

K. Navadeep Goud

Hyderabad, Telangana, India
+91 9676102209 — 9deepgoud@gmail.com
GitHub — LinkedIn

Professional Summary

Final-year B.Tech Computer Science student with a CGPA of 8.58 and a strong interest in Artificial Intelligence, Machine Learning, Data Science, and Generative AI. Completed a comprehensive Data Science bootcamp with hands-on experience in Machine Learning, Deep Learning, Natural Language Processing, and end-to-end AI application development. Skilled in Python, TensorFlow, Flask, FastAPI, Streamlit, MongoDB, and SQL. Currently learning Large Language Models (LLMs), LangChain, Retrieval-Augmented Generation (RAG), prompt engineering, and AI agent development. Passionate about building scalable AI solutions and continuously improving problem-solving skills through Data Structures and Algorithms.

Education

St. Martin's Engineering College

Hyderabad, Telangana

Bachelor of Technology (B.Tech) – Computer Science and Engineering

CGPA: **8.58/10**

Expected Graduation: **2027**

Technical Skills

Programming Languages: Python, Java, C, SQL

Artificial Intelligence: Machine Learning, Deep Learning, Natural Language Processing (NLP), Generative AI

Generative AI: Large Language Models (LLMs), LangChain, Prompt Engineering, Retrieval-Augmented Generation (RAG) (Learning)

Machine Learning: Scikit-Learn, Regression, Classification, Clustering, Ensemble Learning, Feature Engineering, Model Evaluation

Deep Learning: TensorFlow, Keras, ANN, CNN, RNN

Web Development: Flask, FastAPI, Streamlit, HTML, CSS

Databases: MongoDB Atlas, SQLite

Tools & Platforms: Git, GitHub, Docker, MLflow, DagsHub, Jupyter Notebook, VS Code

Core Subjects: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Projects

KrishMitra – AI Powered Smart Crop Yield and Disease Prediction System

- Developed an AI-powered platform for crop yield prediction and plant disease detection using Machine Learning and Deep Learning techniques.
- GitHub:** github.com/navadeepgoud12/krishmitra

InvestVision – Stock Price Prediction using Machine Learning

- Developed a stock market prediction system using historical market data and machine learning algorithms.
- Utilized Python, Pandas, NumPy, Scikit-Learn, and streamlit for data analysis and forecasting.
- GitHub:** <https://github.com/navadeepgoud12/InvestVison-stock-price-prediction>

Phishing Website Detection System

- Built a machine learning model to identify phishing websites using URL-based feature extraction techniques.
- Implemented using Python, Flask, and Scikit-Learn to improve cybersecurity awareness.
- GitHub:** <https://github.com/navadeepgoud12/Networksecurity>

Customer Churn Prediction using ANN

- Developed a deep learning model to predict customer churn and support customer retention strategies.
- Utilized TensorFlow, Keras, and Python for model development and evaluation.
- GitHub:** <https://github.com/navadeepgoud12/ANNproject>

Internship Experience

GAO Tek Inc. (Remote)

Assistant Squad Leader & Graphic Design Intern

- Coordinated team activities, monitored project progress, and supported collaboration among interns.
- Contributed to graphic design tasks and project execution in a remote work environment.

Certifications

- Complete Data Science, Machine Learning, Deep Learning & NLP Bootcamp (Udemy)
- Career Essentials in Generative AI by Microsoft and LinkedIn
- Python Programming and Data Science Training

Achievements & Leadership

- Built multiple end-to-end Machine Learning and Deep Learning projects.
- Currently strengthening Data Structures and Algorithms using Java.
- Served as Assistant Squad Leader at GAO Tek, supporting team coordination and project management.
